Official figures show that the total in-Official figures show that the total increase in sheep in this country is 1,519,229. Expert estimates from these figures show that the total yield of the United States in 1892 is 316,083,731 pounds, or, estimating the shrinkage of pulled wool at 10 per cent, a scoured yield of 141,096,937 pounds. This is an increase of 12,652,224 pounds in the grease, or 6,000,000 pounds scoured.

The Montana Livestock Journal says that thousands of cattle are slowly starving to death in the hills of Southern Idaho. The loss to stock raisers will be tremendous. Every blade of grass under the ranges is under from twenty-two to six inches of

under from twenty-two to six inches of snow. The present winter in that section has not been equaled since 1870. The rigorous season was not anticipated by ranchers and they delayed bringing cattle to the low lands. The delay has proved fatal, and a well known stockman said to day that every domestic animal left in the hills was sure to meet death either from cold or hunger. Nearly every rancher will loose more or less heavily, though many of them had the good fortune to drive pdrations of their cattle into the valley before the great snow came.
